Chanukah facts

- You may be thinking that this year's first light on December 24 seems awfully late. If so, just be glad you probably won't be celebrating in 6792/3032, when Chanukah will start on January 1. The latest it may ever begin is January 6, but that won't happen until 8046/4286.
- You may also recall that a few years ago, we celebrated Chanukah to coincide with Thanksgiving. Because of calendar shifts, that "Thanksgivukah" celebration may never occur again.
